The best connection cables we've ever had:

Brilliant images and perfect sound guaranteed!

Every Clicktronic product represents our vision: We want to manufacture the best possible signal transfer cables for every home cinema and HiFi enthusiast. Our cables should provide a viewing and listening experience that is comparable to the cinema or a concert hall. Therefore, every sound and every image, as well as every pixel and every bit, also needs to be transferred interference-free and with absolute precision even across great distances or under unfavourable ambient conditions.

In order to achieve this goal, a great deal of expertise has been incorporated into every Clicktronic product. As a German manufacturer, we place particular importance on our development and design quality, as well as on the choice of materials and workmanship. We want to offer you the very optimum of what is technically possible in a cable and we forgo all superfluous or extravagant gimmicks. The audibly and visibly improved quality of your entertainment experience, in combination with our excellent value for money, keeps you satisfied and fills us with pride.

This is summed up both in our name and our slogan: Entertainment. Pure.

Our philosophy? Clarity!

The transmission of clear, unadulterated signals is the only thing that counts for us. We actually think that our cables function best if not a single detail of the blockbuster entertainment your are watching, or the favorite song you are listening too, is omitted.

We are passionate about creating products that offer significantly more technology and better signal quality than any standard cable could ever deliver. These products offer home theater and hi-fi fans the logical link to interconnect sophisticated hi-fi and multimedia systems in your living room with the level of quality they require.

That's what clarity means to us.

....

● ● ●

**Designed in
Germany**

....

Developed in Germany.

The desire to develop Clicktronic even further has its origin in the passion to make more out of what was there to begin with, maybe even a little more than what was expected from us. Every day we try our hardest to offer the best possible quality for those thrilling, emotional, goose-bump-raising or relaxing visual and audio experiences at home. Over a period of two years, we have striven to advance product developments to new heights. This is particularly visible in the use of the purest materials, clear design and a perceptible product quality.

....

10 Warranty
**High-Quality
Assurance**

....

Satisfaction guaranteed.

We make no compromises when it comes to customer satisfaction. We are absolutely sure, that the products we create live up to the highest expectations even years after having been placed into service! To underline this exceptional product quality we offer a 10-year warranty on all Clicktronic products.

Two product lines, one goal:

Absolute clarity and unadulterated signals.

Good!
The Casual Series.

The perfect introduction to the challenging world of device cabling can be that easy. The Casual Series offers quality image and sound quality at home equal to that found in theater or concert halls. What good are quality speakers and a true-color plasma screen if the enclosed standard cable remains the weak link in this functional chain.

OFC
99,99% Oxygen Free Copper

Conductors made of 99.99% oxygen-free copper ensure high fl exibility cables with a clear signal transfer

2x
Cable Shielding

Double shielding protects the entire product line from external interference. The plug connectors are made of triple molded PVC/ABS, ensuring a perfect fi t and a secure connection.

24 Carat Gold
Anti Resistance Connections

24-carat gold-plated contacts for maximum signal transfer.

Better!
The Advanced Series.

The product line-up for professional users with extremely high expectations. Durability, highest workmanship, top materials and exceptional signal quality are a matter of course. High-end devices simply deserve the best cables. The icing on the cake. No compromises.

SPC
99,99% Silver Plated Copper

Silver plated conductors are used exclusively, because only silver guarantees the highest electrical conductivity of all metals.
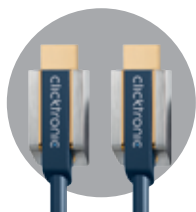

4x
Cable Shielding

Quadruple cable shielding eliminates electromagnetic disturbances to the greatest possible degree. The plug connectors are made of high-precision metal and fulfill the highest demands.

24 Carat Gold
Anti Resistance Connections

Contacts plated with pure gold reduce transmission resistance to an absolute minimum

MP3 Y-adapter

Plug connection of 3.5 mm jack to stereo audio

- pure copper conductor and 2-way shielding for clear signal quality
- Y-RCA coupling for connection to HiFi systems/amplifiers

3,5 mm stereo plug — 2 x RCA jack

Article no.	AWG	Meter
70492	23	0.1

MP3 Y-Adapter

Coupling of 3.5 mm jack to stereo audio

- pure copper conductor and 2-way shielding for clear signal quality
- Y-RCA plug for connection to HiFi systems/ amplifiers

3,5 mm stereo plug — 2 x RCA jack

Article no.	AWG	Meter
70493	23	0.1

Y-RCA adapter

Adapter for subwoofer with stereo input

- pure copper conductor and 2-way shielding for clear signal quality
- 50 Ω defined characteristic impedance

RCA plug — 2 x RCA jack

Article no.	AWG	Meter
70494	23	0.1

RCA jack

2 x RCA plug

Y-RCA adapter

Adapter für Subwoofer mit Stereo-Eingang

- **pure copper conductor and 2-way shielding for clear signal quality**
- **50 Ω defined characteristic impedance**

Article no.	AWG	Meter
70495	23	0.1

Inputs:
TOSLINK-socket
(audio digital optical),
RCA socket
(audio digital coaxial)

Outputs:
TOSLINK-socket
(audio digital optical),
RCA socket
(audio digital coaxial)

TOSLINK/Coax Audio Converter

Converts dual-end digital audio signals

- **permits bidirectional optical/digital-electric conversion**
- **replicates the audio signal to up to two digital outputs (pass-through function)**
- **suitable for sound systems from stereo to 5.1 surround**

Article no.
60834

Inputs:
TOSLINK-socket
(audio digital optical),
RCA socket
(audio digital coaxial)

Outputs:
2 x RCA socket
(audio analog stereo)

## Digital/Analog Audio Converter

Converts digital audio signals into analog stereo audio signals

- **transforms digital TOSLINK/RCA signals to stereo audio**
- **supports audio input with S/PDIF to 24 bits**
- **automatic volume control**

Article no.
60835

Toslink plug

Toslink-plug + 3,5 mm stereo plug

Opto-cable set

Optical digital cable for audio data including 3.5 mm adapter

- **pure fiber-optic cable with optimal light output**
- **precisely fitting high precision full metal connector**
- **3.5 mm adaptor included in the scope of delivery**

Strong Shelving Systems
Your appearance on the POS.

Your benefits at a glance:

- **reinforced, high-grade construction kit System**
- **seamless expandability**
- **easy installation without tools**
- **different variants/topics as desired**
- **optimal product presentation**
- **good price performance**
- **attractive margins**

Available in different sizes:

- **1.0 x 2.20 m**
- **1.0 x 1.45 m**
