HIGHLIGHTS

- with this simple beamer Portable mini Projector you can enjoy movies, sports, videos, pictures and more, like if you were watching a 80" Dynamic image.
- Plug your DVD or Blu-Ray in one of the two available HDMI digital inputs or send video from your computer through the VGA Port, what is more, you can use the AV input to plug another video player, Besides, you can connect an USB memory or SD card to projector your multimedia files.
- the Portable mini projector delivers clear images in low light conditions; the audio can be played through the built-in speaker, but if you need more audio Power output, you can connect an external speaker or audio system using the 3.5mm connector.
- it is very light weight and small size! so you can carry on with the fun, everywhere , a remote control is included in the package to manipulate options and menus Remotely.

Note:

we do not recommend this projector for word or spreadsheet, This is not professional education projectors, video playback is the main function.
