

Free

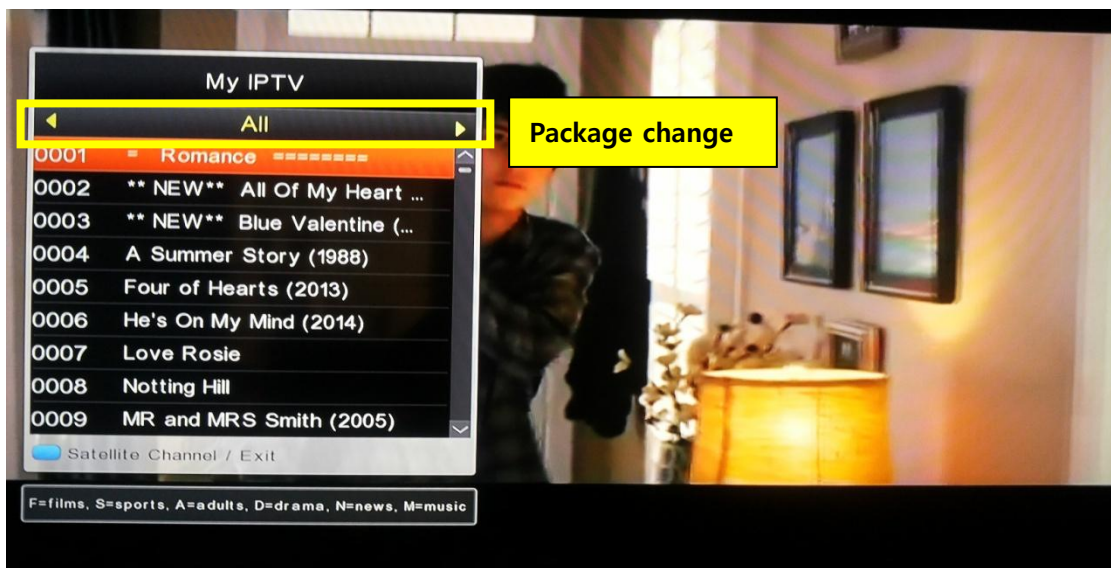

## My IPTV presentation

- support models : FTA magic, 1 card magic, 1card+1CI combo
- supported from software v.1.2.3 / 4.5.6

- ✚ All channels of My IPTV channels are **as FREE**.
- ✚ You freely add any channels from on-line or your own-encoding or <m3u file> into receiver with PC program.
- ✚ Its function is just similar to Mag IPTV box.
- ✚ You can also make password if you want to lock channels
- ✚ You can also make own Category under your name

### (Process to use)

Main MENU -> IPTV -> My IPTV

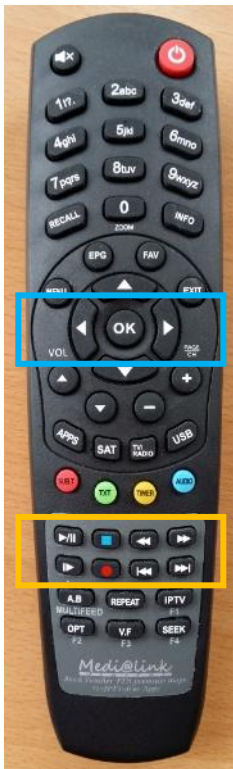

## (How to make your package ...)

- step1) You have to use <My IPTV channel editor / PC program>  
Download <My IPTV settings PC program> from [www.alisat.ws](http://www.alisat.ws)
- step2) You can put any **URL link** into program  
or you can bring <**M3U file**> into program
- step 2) Create your <**Default.xml**> channel list and save it
- step 3) Please send us to make Coding against hacking by third party
- step 4) We will be replaced with Coded format to protect your URL link
- step 5) Put into servers

### Notice)

- ✓ Please properly and regularly **manage your URL / LINK**
- ✓ You can **add Unlimited channels** if you can manage all channels at safety

## (How to see your channels ...)

### 1. like DVD player function :

Fast forward / Backward / Pause / Play

### 2. Change Packages
